

Quick Start Guide

Package Contents*

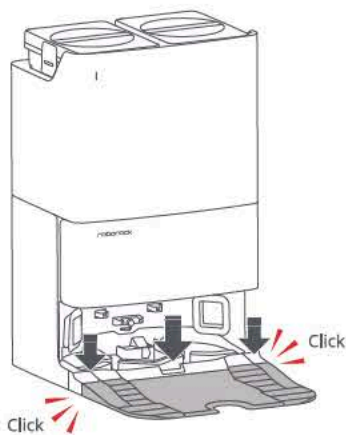

- 1 User Manual
- 2 Dock Base
- 3 Mop Cloths
- 4 Mop Cloth Mounts
- 5 Robot
- 6 Disposable Dust Bag
- 7 Washable Filter
- 8 Power Cable
- 9 Dock (Disposable Dust Bag and Cleaning Tank Pre-Installed)

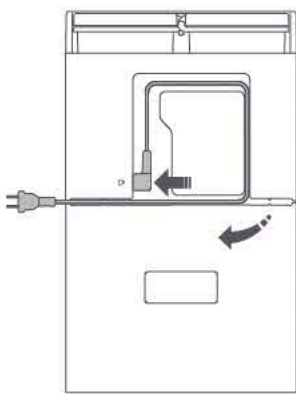

* For illustrative purposes only. Actual product may vary.

Installation

- 1 Attach the base by pressing down both sides of the base firmly, and then pressing the connecting part in the middle until you hear a click.

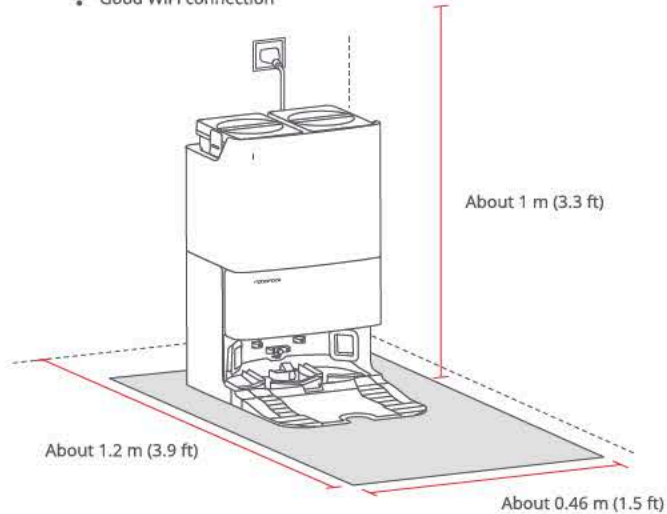

- 2 Connect the power cable to the back of the dock, and keep the excess cable inside the storage slot.

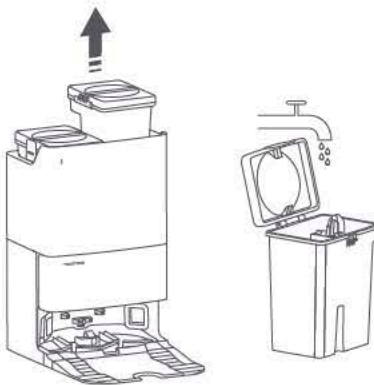

- 3 Place the dock on a hard and flat floor (wood/tile/concrete etc.), flat against a wall and then plug it in.

Good WiFi connection

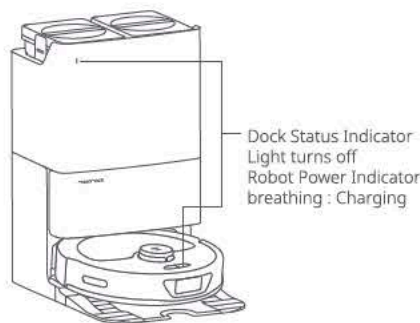

- 4 Open the clean water tank and fill the tank with water. Close the lid, lock the latch, and fit the tank back in place.

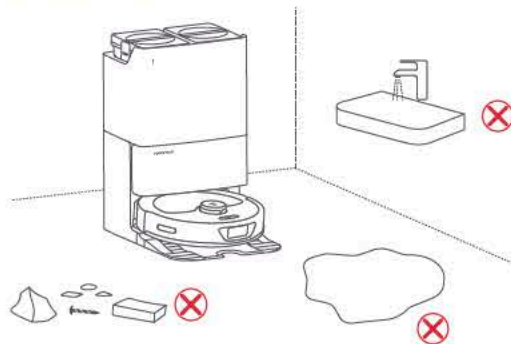

Notes:

- To prevent corrosion or damage, only use the Roborock branded floor cleaner in the water tank.
- Do not add too much cleaning fluid to prevent the robot from working improperly due to slipping.
- To avoid water tank deformation, do not place hot water in the tank.
- If water marks remain on the water tank, wipe them clean before reinstallation.

- 5 Press and hold the  button to power on the robot. When the power light goes on, place the robot on the dock to charge. Make sure the charging dock status indicator light turns off and a "charging" voice alert sounds. To maintain the performance of the high-performance lithium-ion rechargeable battery pack, keep the robot charged.

Cautions

Notes:

- Do not use the product to clean hard or sharp objects (such as decoration wastes, glass and nails).
- To prevent water damage, do not vacuum very wet floors.
- Do not wash the robot with running water.
- To prevent excessive dirt buildup during first-time use, floors should be vacuumed at least three times before mopping.

Quick Connect to the App

- 1 Download and install App.

Search for "Roborock" in the App Store or Google Play or scan the QR code below to download and install the app.

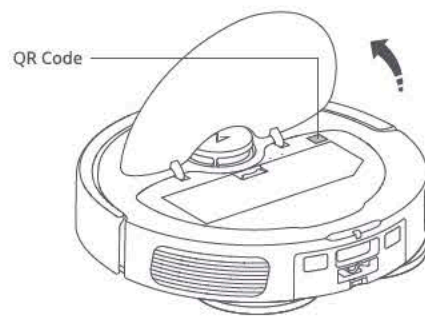

Notes:

- Connect your phone to your home WiFi before setting up the robot.
- App interface may change in future versions. Always follow instructions provided in app.

- 2 Open the Roborock App then tap the "Scan to Connect" button.

- 3 Open the upper cover, reveal the QR code.

- 4 Scan the QR code on the robot, and follow the instructions provided in the app to connect to a 2.4 GHz home WiFi network. 5 GHz networks are not supported.
